

AGM
SERVICES

A nationwide network

With service centres based in Hampshire, the Midlands, Greater Manchester, Cumbria and Scotland, AGM covers the whole country. Wherever you may be and whatever the problem, our team of fully skilled engineers is able to respond quickly, efficiently and economically.

The service we provide is, quite simply, the best in the business. Our engineers are directly employed by AGM and offer unrivalled experience in servicing and repairing spraybooth ovens of all makes, as well as dust extraction systems, paint mixing rooms and ancillary equipment.

All our engineers are CORGI registered and have formal qualifications in mechanical and electrical engineering. We require our engineers to undertake gas safety courses for industrial applications leading to the Nationally Accredited Certification Scheme (ACS) and we provide practical combustion engineering courses in partnership with burner manufacturers.

The quality of our customer care is underlined by ISO9001:2000 accreditation and the quality of our workmanship is reflected in a growing list of customers, large and small, throughout the UK.

Parts for all spraybooth ovens at competitive prices

Our vehicle fleet carries an extensive range of spares covering all makes of vehicle spraybooth oven. If we don't have the part you need in stock, we'll obtain it within 24 hours. Our prices for parts are amongst the most competitive you'll find anywhere.

AGM
SERVICES

Your spraybooth oven makes a major contribution to the success of your business. So it's imperative that it operates efficiently and economically at all times. Whatever your make of spraybooth, AGM Services can help you to maximise the productivity and revenue from this vital asset. Our services include scheduled preventative maintenance, emergency repairs, replacement parts and much, much more.

effective, dedicated support for all makes of spraybooth, nationwide

Maintaining reliability and operating economy

A Maintenance Agreement with AGM Services will not only reduce the risk of inconvenient and potentially costly breakdowns, it will help to ensure your spraybooth oven continues to operate at peak efficiency. You'll see the benefits in consistent spraybooth performance as well as improved reliability.

Regular scheduled maintenance by AGM's experienced engineers will also support compliance with your statutory obligations under the Environmental Protection Act and COSHH legislation.

spraybooth oven. Our range also includes Input Air Filters, Primary Extract Filters, Pre-Filter and Secondary Extract Filters. All products are manufactured from the finest, most resilient materials and achieve the highest levels of efficiency.

A compliance support service to help keep you legal

Increasingly rigorous Health & Safety and Environmental legislation can be a potential minefield. AGM can offer you peace of mind by helping you to meet your statutory obligations. Our services include Mist Clearance testing using the latest technology & protocol, Local Exhaust Ventilation (LEV) testing, which measures air flow velocity for paint mixing rooms and dust extraction systems, and Air Quality testing using the very latest equipment calibrated to NPL (ISO9002) standard. Certification is provided for all of these services, free of charge.

Equipment upgrades that save energy and money

With high energy prices set to keep on rising for the foreseeable future, profit margins are under increasing pressure. More and more Bodyshops are looking at ways to reduce energy consumption and operating costs. AGM can offer you expert advice on equipment upgrades that can greatly improve the energy efficiency of your spraybooth oven.

An AGM Maintenance Contract brings you a whole range of advantages including:

- Free calibration service to BS EN ISO9001:2000
- Free technical support over the telephone
- Reduced hourly rate for any additional work undertaken
- Priority call-out for emergency repairs
- Fixed price on labour and materials
- Technical support on EPA, COSHH and equipment malfunction
- A plan tailored to your needs and spraybooth operating hours

An emergency repair service you can really depend on

If your spraybooth should ever breakdown, the last thing you need is to be let down by your service provider too. Whether you are contracted with AGM Services or not, you can rely on us to respond quickly, efficiently and economically. With engineering divisions strategically located around the UK, our fully skilled engineers can deal with any equipment failure, anywhere. Our vehicle fleet carries most common replacement parts for all makes of spraybooth oven. Even if we don't have the required part in stock, we can normally obtain it immediately.

The filter materials you need - when you need them

A scheduled filter supply programme can be crucial in maintaining peak spraybooth performance. We supply all types of filter media including filters for 3-stage filter regulators. Bag Filters are manufactured to suit all makes of
